

Press Release for Service Adjustments to BurLink Routes

Burlington County's BurLink Bus Services have operated along six different routes for more than 15 years, in their mission to best serve the transportation needs of County residents. As such, the County continually monitors ridership totals to ensure that these services are provided efficiently. To date, local bus routes B9 and B10 continually operate below the minimum ridership threshold. Therefore, it has been determined that these routes will be taken out of service so as to most effectively allocate taxpayer dollars.

Starting on January 2, 2016 BurLink will operate the following routes:

- B1 – Browns-Mills, Pemberton, Mt. Holly, Willingboro, Beverly Light Rail
- B2 – Westampton, Willingboro and Beverly Light Rail
- B5 – Florence Light Rail, Haines Industrial Park and adjacent Rote 130
- B8 – Riverside to Route 130.

Two routes will be discontinued at that time:

- B9 – Palmyra/Cinnaminson to Moorestown Mall and East Gate.
- B10 – Cinnaminson/Riverton to Route 130.

These route changes will preserve 85% of the ridership on BurLink.
