

Bikes and BurLink

Make sure you follow these tips for safely bringing a bike on board the next time you ride BurLink:

- As the bus approaches, have your bike ready to load. Remove water bottles, pumps or any loose items.
- Always get the driver's attention before you load or unload your bicycle.
- Always load from the curb side of the street.
- Place bike in the outside slot of the rack if empty.
- Make sure the support arm is resting on the tire and not on the fender or frame.
- Sit up front and keep an eye on your bicycle.
- Return empty rack to the upright position after you remove your bicycle.
